

July 5 "fiver" at this time in history

As we come together to celebrate the goodness of God upon our land, we begin with giving thanks for all His blessings. It would be grand for the saints to express heartfelt appreciation to Him for our unique calling, while submitting ourselves afresh for His service. Let us declare the light of the Lord over our country, and that His light would rise through His saints throughout the world.

Is the current political/spiritual scenario:

- a. A wake-up call to the church?
- b. Temporary, or the sign of the beginning of a downward spiral to the end?
- c. A divinely ordained scenario aimed at inspiring prophetic advance to awakening?

How do the saints advance in our role in discipling the nations God has entrusted to us?

What do we as individuals need to do in our personal, ministerial, and familial lives?

Note any vision/prophetic word received DURING THIS PRAYER TIME!!!!

What do we need to personally offer in prayer for our church/ministry?
